

CCTV – REPORT FOR COUNCIL JULY 2020.

Background

In 2018 the Council was approached by the Police regarding installing CCTV in the centre of Haslemere. This followed a number of serious crimes – ram raids, theft of cashpoint and sexual assault close to the Town Centre. A number of meetings were held with Police and the Chamber of Trade were also consulted. In January 2019 Council agreed £15,000 budget to cover Town Centre, Wey Hill and Beacon Hill (it was subsequently agreed to postpone the installation in BH due to perceived lack of crime).

Town Centre

The installation of cameras on the Town Hall is complete. As previously told the tulip tree on the memorial green did not need to be removed. The cost of 4 cameras, ultra high definition, supplied and installed along with a monitor and hard drive - £1637

Wey Hill

Permission has been granted by WBC for installation of a secure cabinet outside Haslewey to hold a wireless recorder. It is intended that two cameras are put on the lamp post outside Haslewey looking towards the traffic junction at Tesco (where Wey Hill in Bloom boxes are regularly vandalised) and partly up Wey Hill. Another, to cover the rest of Wey Hill, will be sited on the lamp post outside the Art Department.

We are waiting for Skanska to give permission for CCTV to be installed at Wey Hill in the locations described above.

Cost of supply of secure cabinet, two lighting column installations using cherry picker – circa £6000.

Quote from our selected supplier (three quotes were previously supplied) is supplied with the Agenda. We await costing from HERS registered installer – tbc.

This brings the total installation for both areas to around £8,000, significantly less than the £14,000 remaining in the budget.

RECOMMENDED:

That the Town Clerk is authorised to make necessary arrangements with Sleep Tight for the installation of CCTV in Wey Hill according to their quote.

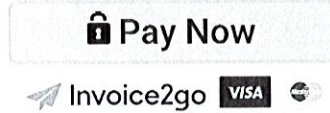

Description	Quantity	Rate	Amount
<p>To supply</p> <p>1 x 4K 4 in 1 specialist behaviour camera</p> <p>Feature</p> <p>8MP high resolution</p> <p>6mm fixed lens</p> <p>Horizontal FOV; 180°</p> <p>Vertical FOV: 30.3°</p> <p>H.265 / H2.64</p> <p>20 m IR range</p> <p>IP67</p> <p>6 behavior analyses, audio exception detection, and face detection</p> <p>1 x post bracket</p> <p>1 x 8 channel 4K Network recorder</p> <p>1 x External Cabinets are galvanised, weatherproof roadside enclosures designed for outdoor use to house security and networking equipment.</p> <p>External Street Cabinets to IP55 Specification using Galvanised steel.</p> <p>2 x 6TB of continues recording for 30 days</p> <p>1 x made to measure concrete base for roadside cabinet (concrete base for unit will need to be carried out two days before install of cabinet)</p> <p>Electrical works will need to be carried out a day before CCTV system can be installed.</p>	1	£3,831.80	£3,831.80
