

**Town Meadow – playground****Playground & benches**

Waiting for quotes for cleaning of both

The playground is in quite good condition considering age. Jet washing of the fence may cause more issues due to do several layers of paints being exposed and we could end up with a multi coloured fence, so will bring that to the attention of the company we instruct.

Seesaw seats are quite bad and will need replacing at some point.

Our play inspectors will be doing an inspection this month and we will report back more fully at the April meeting.
