

BACKGROUND

The CIL committee has agreed it would like to commit CIL funding to the purchase of a new Derby Double E recycling bin with 2 x 120 litre galvanised liners for Lion Green. There is a clear need for additional litter bins at Lion Green and it is hoped that by purchasing this, the Council should not have to hire additional bins from Chambers.

The proposed location is on the concrete plinth next to the existing double bin, situated near the path to the enclosed childrens' play area.

We already have stickers ("decals") of our crest which can be put onto the bin to identify it as our property.

1 empty of the bin per week 52 times a year is £250, so we are budgeting for 3 empties a week at £750 per year.

Recommended: CIL funds of £538.95 be used to purchase the bin and fixing kit and includes delivery. Installation will cost an additional £25 if the Project and Amenity Officer is unable to do it.
