Good afternoon, Lisa,

Cllr Knowles has asked us to take some action because the short stay section of Weyhill Fairground is in his words 'full of commuters and there is nowhere for shoppers to park'. He has asked for us to take some action. You will be aware that when we last enforced the four-hour limit in this car park it caused some issues as there were a number of shopkeepers and shopworkers who were parking in this area for longer than four hours on the basis of some form of 'gentlemen's agreement' contrary to the Parking Place Order.

Obviously, it is difficult to enforce against 'commuters' and not against 'locals', especially as it is virtually impossible to differentiate between the vehicles. If we are to take action it will obviously have to be applied uniformly across all vehicles in the car park.

I would be interested to hear your views and those of your Members before we initiate any action.

Kind Regards

Richard Homewood
