

Haslemere Neighbourhood Development Plan

Examiner's Report

Erratum

Context

My report on the examination of the Plan was sent to Waverley Borough Council on 6 July 2021. It has been published on the Council's website.

This note identifies one error and one omission in that report and amends the report accordingly. In both cases the matters relate to Policy H14 of the Plan which addresses biodiversity issues.

Corrections

On page 32 of the examiner's report the fifth recommended modification should read as follows:

'Replace the first sentence of Policy H14.3 with 'Development proposals should result in a net gain for biodiversity'

Immediately after the fifth recommended modification insert an additional recommended modification to read as follows:

In the first of the two bullet points in Policy H14.3 insert 'of value' after 'biodiversity interest'

Other Comments

The remainder of the report dated 6 July 2021 is unaffected by this note.
