

HASLEMERE TOWN COUNCIL

Town Meadow Waste Bin

Background:

We have recently installed two new picnic benches and two new bench seats which are being well used. However, this is generating more rubbish and the waste bins, specifically two on the main pathway by the children's playground, are now regularly overflowing (marked 1 & 2 on the map on page 2). None of the bins are covered which attracts birds and foxes. We have had several complaints from local residents and park users about this issue.

We propose that one double, covered bin is purchased and replaces the bin marked 1. The new bin would have 2 x 110 litre galvanised liners, separating general waste and recyclable waste. Please note however, we have been advised that any recycled waste is spoiled if there is any cross contamination.

SUPPLIER	Price (EX VAT)
EARTH-ANCHORS (double) 2x 110 Ltr	£ 817.00
6 month emptying cost	£500.00

The emptying cost is based on two empties a week. The increased cost to be added to the appropriate budget line for 2023.

RECOMMENDED: One double bin is purchased, and the cost of purchase and emptying comes from the Amenities committee fund until 31 March 2023.
