

PLAYGROUND CLEAN

Background

Several years ago we instructed a company to clean Lion Green playground following a particularly wet winter. It entailed:

- Preparation and clean of all surfacing, to include the removal of fallen vegetation and detritus;
- Power wash of approximately 500sqm of Wetpour surfacing;
- Application of anti-fungal inhibitor to deter algae & moss regrowth; and
- Power wash of all existing equipment, gates & furniture.

They did a really good job, and it made a noticeable difference to the asset.

Town Hall officers consider that both playgrounds could do with the same treatment so they are ready for the warmer weather.

Company	Quote
VitaPlay	£1,200
Crystal Clean Solutions	Awaiting quote
Green Surface Clean	Awaiting quote

RECOMMENDATION: On receipt of the balance of quotes, the Clerk and Chairman of Amenities be authorised to instruct a contractor. Payment of the works will come out of the playground maintenance budget.
