## **Lion Green HIP HOP hub replacement.**

In August the Amenities Committee considered the replacement of the HIP HOP hub because the bushes were badly worn but the manufacturer no longer make replacement bushes. We were asked to make further investigations as to whether new bushes could be sourced from an alternative source but were advised they couldn't and it would invalidate any guarantee or warranty on this item.

The alternative was to ask for a discount on the replacement cost. We have had a few issues with this item of equipment and Proludic have agreed to reduce their cost by 50% from £1,914 plus delivery to £957 plus delivery. We are assured that the whole system has been upgraded so it should be a long period of time before needing to replace parts again,.

**RECOMMENDED:** The HIP HOP hub is replaced by Proludic at the new quoted price.
