

HASLEMERE TOWN COUNCIL

Tree maintenance works

BACKGROUND

- We instruct an independent arboriculturist to undertake tree surveys on Town Council land.
- Every two years the trees at Clement Corner (Crown & Cushion), Grovers Garden, Lion Green, Town Meadow, St Christopher’s Green, Woodcock Green, the three allotment sites, and the embankment at Sturt Road are surveyed (half the sites one year, and half the next plus any trees to be re-inspected).
- This year Clammer Hill and Collards Lane allotments & St Christopher’s Green were surveyed, and trees at Lion Green, Town Meadow & Woodcock Green had to be re-inspected.
- As an overview, the surveyor marks the trees in the report as follows:-
 - Essential safety 1 month
 - Routine maintenance 12 months
 - Essential maintenance 6 months
 - Fell to ground level
 - Reinspect 1-3 years
- All trees marked ‘essential safety 1 month’ have been dealt with.
- Quotes have been obtained for essential work - 6 months

Location	£
Clammer Hill	£400
Collards Lane	£2,000
St C Green	£450
Woodcock Green	£1,000
Total	£3,850

- This will exceed the tree budget for 23/24 as there is £1,250 left in the budget, so we recommend:

RECOMMENDATION: Clammer Hill & Collards Lane allotment work comes out of allotment EMR
RECOMMENDATION: Woodcock Green comes out of the tree budget
RECOMMENDATION: St Christopher's Green comes out of the remaining tree budget and the balance from the ad hoc ground maintenance budget

- Quotes have been obtained for the routine maintenance work - 12 months

Collards Lane	£1,000
---------------	--------

- **RECOMMENDATION:** This work is added to the tree maintenance budget for 2024/2025
