

HASLEMERE TOWN COUNCIL

ANNUAL VERTI DRAINING LION GREEN

BACKGROUND

- Following discussion at the 8 June 2023 Amenities Committee meeting it was agreed that an annual verti drain of Lion Green would take place annually from April 2024 and this would be added to the grounds maintenance budget from 2024/2025.
- However, the committee reserved the decision to get it done as a one-off in October 2023 until the August meeting (which was subsequently cancelled) because it represented approximately one quarter of the annual amenities budget.
- At month 6 none of the amenities budget of £2,500 has been spent.
- The cost will be £800.

Recommendation: Lion Green is Verti drained in October 2023 and paid for out of the Amenities Committee budget for this year.
