

HASLEMERE TOWN COUNCIL

WARD SIGNS

BACKGROUND

Following the local governance and boundary review, some of the white ward signs are now incorrect both in name and location. The current signage is not uniform in the information they display (see below).

Officers will price up decals stickers to add to existing ward signs that are correctly located, to update the name and reflect that it is a ward sign. Further information will be provided at the next meeting in terms of the options in case Councillors want something added to next year's budget.
