

# HASLEMERE TOWN COUNCIL

## Wooden posts and wildflower area

- We have received correspondence from the Lion's Den asking whether there is scope to install new chestnut posts around the edge the area of they have a licence to use (see plan below – area edged red).
- What existing square posts remain are badly rotting and it proposed the new posts would be akin to those already installed on Lion Green.

- The Lion's Den would install the posts if the Council was able to fund the stakes.
- A quote of £200 plus VAT has been received and this can be funded out of the Amenities budget.
- The Town Clerk and Chair of Amenities have agreed this course of action under their delegated authority, and this is for the Amenities committee to note.
- In addition, the Lion's Den would like to sow a little wild seed meadow at the traffic light end of this area, which they would mow and maintain.
