

HASLEMERE TOWN COUNCIL

Town Meadow Drainage work

Background:

In November 2023, Council agreed a nominal budget of £20,000 for the drainage work to be paid using Neighbourhood CIL funds.

A civil engineering consultancy has been instructed to review and evaluate the submitted tenders and provide a recommendation about which contractor should be instructed to do the work.

The consultant has made a recommendation about the scope of works to allow for 10m length land drains, rather than 5m, and has asked for revised quotes from the contractors. His recommended contractor has come back with a revised quote of £23,000.

RECOMMENDATION: A further £3,000 of Neighbourhood CIL is committed to this project.
