

HASLEMERE TOWN COUNCIL

War Memorial St Albans, Hindhead

Background

We look to inspect the war memorials every couple of years using the Historic England condition survey. Inspections have been carried out at the memorials at Grayswood, High Street, St Stephen's church and St Alban's church this year. All of the memorials look fine with the exception of the memorial at St Alban's church where the stone is delaminating in areas and could do with a clean (pictures overleaf).

Having had similar work done at the war memorial in Haslemere we propose it should be cleaned first, as using a high-pressure hose can have an adverse effect on the delamination and then repaired using the same method if recommended by the stone mason.

RECOMMENDED:

Quotes to be obtained for the cleaning of the memorial and repairing the delamination. To be added to the budget for 2026/27.

RECOMMENDED:

Clerk contact the War Memorial Trust to see if any of the works are eligible for grant funding.
