

## APPENDIX 18.3

### OUTDOOR CLASSROOM COSTINGS NOT PREFERRED OPTION

Outdoor classroom costings:

#### Rectangular Outdoor Classroom

Product Code: PPO-300-010

Outdoor wooden classrooms are a great teaching tool for lessons in the sunshine. But due to our sometimes inclement weather in the UK, they not only provide shade from the sun but children can seek shelter from wind, rain and other elements. This is our rectangular Classroom complete with seating and benches and two chalkboards including two entrances. Manufactured in pressure treated timber with a shingle roof, it has an internal area of 21 metres square, can be installed with or without a floor surfacing, [read more](#)

Please contact us to discuss your precise requirements and to obtain a firm quote. Prices shown do not include VAT, carriage or installation. We aim to honour quotes for 2 months regardless of increases in the cost of materials or labour, or bought in parts.

Carriage is charged at cost.

We provide free technical support from initial sales inquiry to completion of installation and for the first two years of operation. If you maintain a record of the management of your toilet in a logbook then we will provide free online or telephone support indefinitely.

If you are a building manufacturer interested in incorporating our composting toilets in your buildings, then please contact us for more details and OEM pricing.

### **FULL ACCESS COMPOSTER**

**complete kit with a building and grab rail kit £8775 for the timber building and £9650 for the metal building**

The building shown right is our standard steel model for allotments and similar applications where vandalism may be an issue. The building has a galvanised frame, Plastisol and zinc coated steel cladding (with a 30 year manufacturer's guarantee) and wipe down EkoPty internal linings. The door and cubicle size are designed for wheelchair access.
