

Town Meadow Bandstand – outline costings

Below are high-level costs for a proposed bandstand on Town Meadow. All prices are subject to structural review & site survey and the council would have to go to tender to get three quotes.

This “Budgetary Proposal” is an estimate of the costs for the supply and installation of the items listed.

All supplied flat packed to site

Work Scope

- Site surveying (as defined in “Basis of Offer”)
- Manufacture of above components
- Delivery to Site (Including offloading)
- Plant equipment/Hire
- HD Anchors (Post fixed solution)
- Installation (Normal working hours)
- Site left in a clean & tidy manner

Whilst the prices provide a high-level of cost accuracy, due to volatility and fluctuating commodities on the market (at the time of this estimate being calculated) certain contingencies should be included within the cost plan.

Example bandstands:

Bury Bandstand = £115,000 -125,000.00
